

We manufacture laser-cut blanks in any variant with strip thickness values of 0.2 to 3.0 mm with our modern TRUMPF laser cutting system.

The maximum widths can range up to 300 mm (materials 1.4310 and CK 75) or 1250 mm (material 1.4301). Of course, other materials are also available at request.

Thanks to this high-tech system we can obtain precision values of up to +/- 0.05 mm.

We accept your 2-dimensional drawings in the following formats for immediate processing: dxf, dwg, mi. Other file formats can be used by our CAD office without any problem.
