

# Transatlantic Connection supplies both standard *and* custom Hirth couplings

Standard Hirth couplings from 50 to 1000 mm

Transatlantic Connections, Inc. is your *premier source* for Hirth couplings!

---

Our state-of-the-art manufacturing plant is located in the Northern industrial belt of Spain's Basque region-THE center of the growing Spanish machine tool industry.

We manufacture standard Hirth couplings in all diameters from 50 to 1,000 mm, and with 24 to 720 teeth (depending on the diameter).

Special Hirth couplings per customer drawings

Custom couplings? Not a problem! We routinely manufacture custom pieces per customer drawings, including 3 piece couplings and diameters up to 1,150 mm. All couplings come with a certificate of dimension specifics for your records.

If you need Hirth couplings or a Hirth coupling-style product, please send a drawing or refer to the dimensions for standard sizes on datasheet 330.110. Contact us for additional information on calculation formulas for sizing- we can help with *any* of your Hirth coupling questions.

---

Custom 3-piece Hirth couplings

With so many standard sizes available from stock, delivery time is fast- and paired with the excellent quality you have come to know and expect from Transatlantic Connection, Inc.- we believe our prices are unbeatable.
