

To facilitate mounting and dismantling of tools

Rev. 12-1102 Page 1 of 1
Uncontrolled Document

Standard Specification

Mounting unit partially pre-assembled, aluminum body, holding sleeve, swivel unit and clamping elements.

Function

The mounting unit consists of a cast aluminum body with a holding sleeve for holding the various flanges. The holding sleeve can be turning and clamped 90 degrees. The tool is clamped using a clamping lever.

Note

The mounting unit is to be fixed to a workbench using 4 bores located in the aluminum body.

Item / Flange	Part Number
