

The runout arbor travel case is designed for portability while protecting arbors. The case holds two arbors, with additional space for extra retention knobs, indicator, and a magnetic base. The case is virtually indestructible and waterproof. Can be used with padlocks for added security.

When a runout arbor is frequently transported from site to site or on a service truck, our travel case with die-cut foam protects the arbor while making it easy to carry. The travel case is not recommended for shipment without additional packaging.

### Key Features

- Waterproof and airtight (up to a depth of 3 feet)
- High-density customizable, hexagon-shaped foam interior
- Lock holders
- Rugged handle

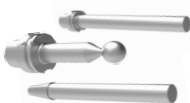

Outside dimensions: 18.36" x 13.70" x 7.03"
